

Santa Clara Valley Water District Qualifying Products List  
Weather Based Irrigation Controllers

The following list contains EPA WaterSense Labeled Climate-Based Controllers that are eligible for a rebate. Weather-based irrigation controllers must utilize an onsite weather station or local weather monitoring system to qualify. An onsite rain sensor is recommended for models that do not utilize an onsite weather station, but not required. Controllers that are not EPA WaterSense certified will not qualify for a rebate.

For more information on these controllers, please see [www.epa.gov/watersense](http://www.epa.gov/watersense).

Manufacturer	Model	Website
Aeon Matrix	Yardian Lite or Lite+ Smart Irrigation Controller	<a href="http://us.yardian.com">us.yardian.com</a>
